## Real Estate

Florida's real estate industry continues to grow, creating opportunities for developers, financial institutions and REITS, private investors, redevelopment agencies, and others. This vital industry encompasses commercial, retail, residential, industrial, mixed-use and resort developments, as well as community associations. Ruden McClosky is a full-service law firm that was founded almost 50 years ago in the practice of real estate law. Today we are known by many of our clients as a preeminent "real estate law firm" and a leader in this sometimes volatile and highly regulated industry. With 11 offices in Florida, we are positioned to serve clients in all facets and stages of real estate development -- from acquisition, through planning and zoning, to project finance, development, construction, sales or leasing, and project repositioning or workouts. Our real estate attorneys also work closely with our attorneys in other disciplines such as Land Use, Banking and Finance, Environmental, Construction and Litigation. Please see our [Real Estate Practice Group](#) for more information about our capabilities and services.
