## Computer, Software and Internet

Ruden McClosky's Corporate Law and Intellectual Property attorneys are experienced in a variety of legal issues relating to technology, the Internet, and electronic business, and can help you assess your potential for any liability. Our attorneys have represented clients in areas such as Internet privacy and data protection; preparation of website agreements; technology and web services contracts; buying or selling Internet businesses; Internet content licensing; end-user licensing agreements; copyright and trademark advice; domain law; and advisement on state, federal and international regulations.
